

Chiron Last: The witness

<https://youtu.be/L4dZ2ViC3fk?si=EZXc7pCD0IKBhEwj>

What is it to be the witness? Is it to observe without being involved and if one is involved is being the witness the one who is unaffected by any outcome?

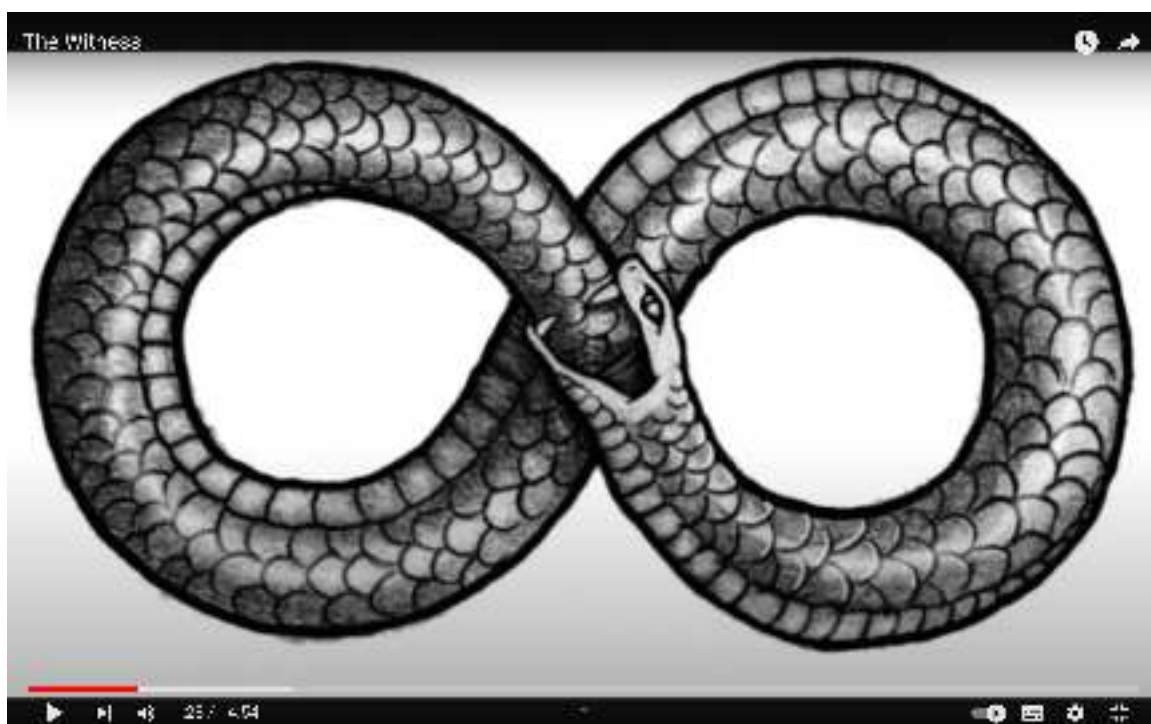

To be affected implies choice and therefore duality, and this automatically means conflict. The individual is now truly the in the IN-DIVIDE- DUAL, and it is manifestly a 'duel' of the Mind.

The battle over the 'dual' mind is the 'duel' that is continuously RE-'solved' because that is its cycle.

How does one not become IN-volved in this battle? That is the war of the snake as the Latin 'volvo' (from in-"VOLVED") states with a meaning of "travel in a circle, moves sinuously (like a snake)", while the Latin 'involvo' translates as "cover, envelop, roll along" and the Spanish adds to the equation with 'volver' meaning "return, come back."

Gun manufacturers knew the correct term when they produced the “reVOLVER but it is the IN- DIVIDE- DUAL, that shoots themselves in the foot with each successive ‘spin’ on the roulette “wheel of life:” a shot that goes right down to our sole/soul that ensures we leave our footprints of blood everywhere we “turn” so that we are entrenched and entangled in the byzantium mire of Illusion.

When we become “involved” in the dramas of this RE-ality, we are spun in the cycle of Duality conflict and therefore become attached, and through this attachment we can never be free of its endless circular trap.

This 're'ality cares not for what your mind becomes attached to - so long as you are tethered to something because you are "then" caught in the web of E-"motion"; a motion that re-'volves' into itself where there is no escape from the Invisible prison gates.

That's why the court CYST-STEM/system wants everyone to file "emotion" ('a motion') because you are thence forth caught in the hex of this game where the only way to become free is to go "beyond Good and Evil."

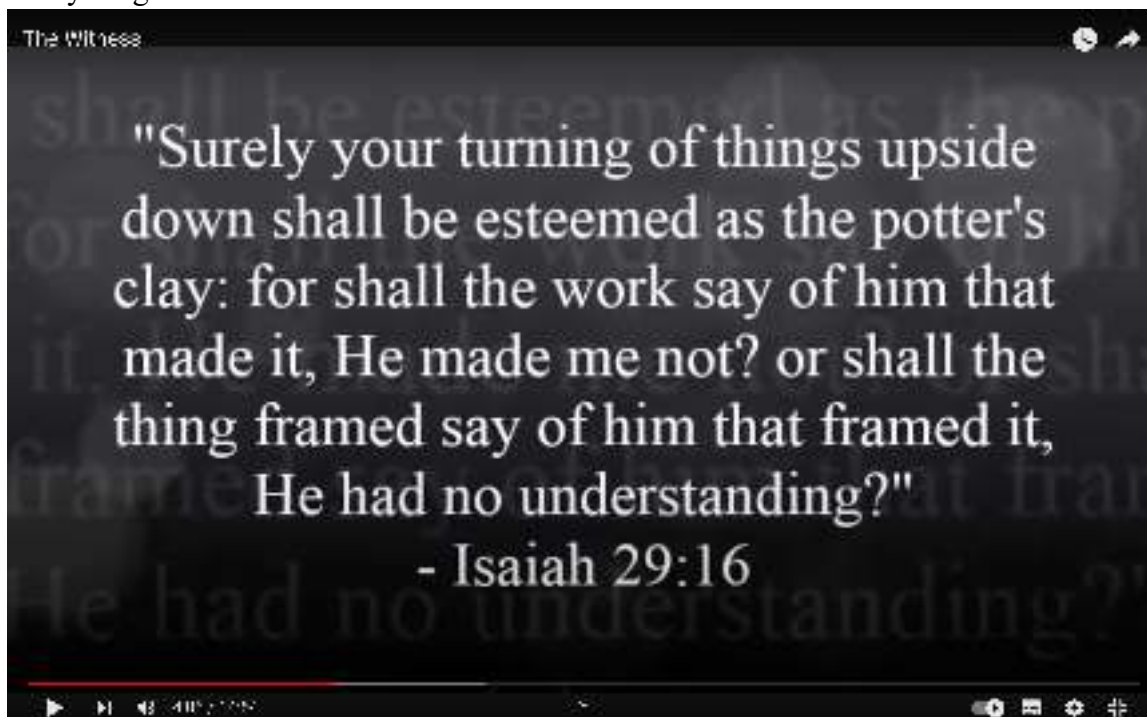

That's what transcendence is - being the witness in the “gallery” which is where the GODS sit. They are unaffected by the DUEL-ity of ‘desire’, because to DE- SIRE oneself is to hand over the Crown and KING- DOME of your mind.

Transcendence; what a phenomenal word, with so much to say - and the technologists are tainting it with their DE-SIRE to merge with machines and make humanity even more “dense!”

Everything is an inversion with these controllers!

Transcendence is from the Latin 'trans' meaning "beyond, across, through." The phonetics of the word help us with the rest; Trans-SEN-DENSE, with 'sen' being the Czech and Polish term for "sleep, dream, doss" (yes like MS-DOS/ disc operating system, which is why computers "sleep" and "crash") while the phonetic word "dense" by definition means "permitting little if any light to pass through because of compression of matter."

That's exactly where we are, in a compressed state of matter that is “dense” and “heavy” due to the IONic duality we are in where we carry the genes of Isis. ‘Ion’ is Latin for “Isis” and the low vibration illusory hex of this PLAN E.T. is the divine Comedy as shown by the Latin ‘ilusio’ and illusIONis meaning “mockery, jest, irony.”

The ‘wit’ness uses their own “wit” to see through the joke and walks the edge of the “ness” (wit-NESS) which is the strip of land that projects itself into the ocean.

The witness does this and laughs back at the illusion and declares; I AM finished with this game and its tricks and it's deceit. I carry my own light and I have 'unveiled' ISIS as I AM a witness of the Mid-DULL path whereby the trickery and sorcery of misconceived DE-LIGHTS 're'CHOIRS a duel/dual mind that is in perpetual conflict with itself. SEN-SES are what this "dream-state" world tells me to believe in – the "angel" and "devil" that are on my shoulders as the Turkish word 'ses' indicates with a meaning of 'sound, audio, vocal." I see through the façade, and now it is I who mock the pains that the wizards have taken to perpetrate this entire scheme, because to control a duality one must themselves also be a part of it -and the Paradox lesson for their deceivers is that the controller IS the controlled.

The “guards” must simply go on denying that they are also in prison themselves. The game can only continue when one feels that there is something to “gain,” but there is no “gain” without “loss” and to be ‘in-volved’ in the “win/lose” match is to automatically RE-LINK-WISH (relinquish) one's Freedom simply for a “chance” to “be somebody” or to “make an impression”- which is all false.

Who am I? I AM NO-BODY, because a body is the FORM-AT-ION/formation of duality, whereby in this Paradox one can only gain life by losing it. Truth can never die and since the body can die, it is not the truth – likewise; a lie can never gain life and since I am living, I must be the truth and the truth is of me and within me!

Therefore, I AM is neither gain of life nor loss of death but something else entirely. The WILL of my being and becoming sends this statement, In'voice' and 'out'voice to the cosmos: that I AM the lawful owner of my mind, 'con'sciusness/'pro'consciousness/ subconsciousness, super Consciousness/multi-dimensional forms and informs of the mind and the SEAT of mine own KING-DOME. I do not RE-LINK-WISH nor Relinquish my awareness to anyone or anything else/EL's. This is mine own WILL and my WILL be done. I am not silent on this MATTER and this means that there is not a "yes confirmation" that is LENT from being silent to anyone or anything outside of mine own KING-DOME.

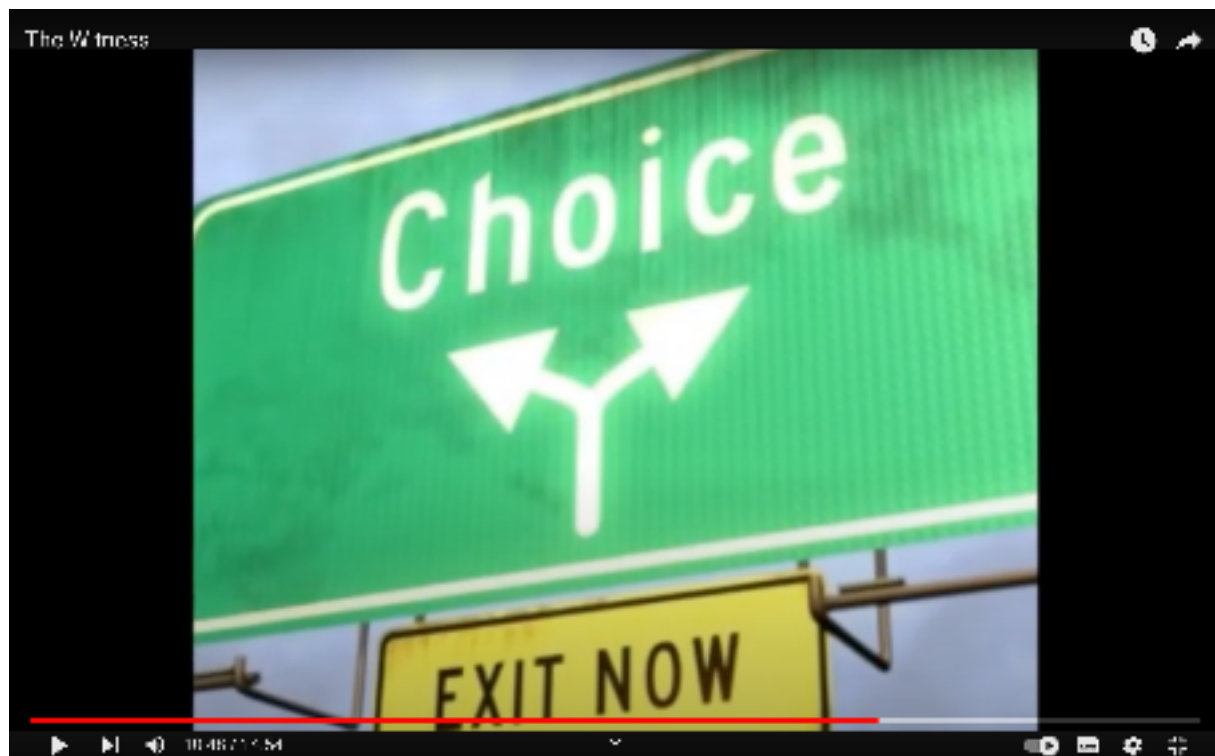

What good is a WILL to leave the belongings and remnants of the body and worldly POSSESSions taken care of and to entirely forget the soul, spirit, and mind?

Let it be known that the only form of control that can EXist and INSist is SELF-Control. As it has been said before what good (in death) is it to gain the world and lose one's soul? That's what it means to be "intestate" from the Hungarian 'int' meaning "exhort, to motion" and the English suffix of "estate"(from Old French 'Estat) meaning "everything that one owns." When one does not announce their WILL OF INTENTION they are 'motioning' everything that is owned to anyone or anything that is WILL-ING to freely take it. The world of humanity are setting up their WILL for the things of the world and thinking nothing of the soul and Beyond what is worse is that many 'believe' that this is taken care of when they 'sign; their Spirit away through the false conviction and faith in a religious 'savior!'"

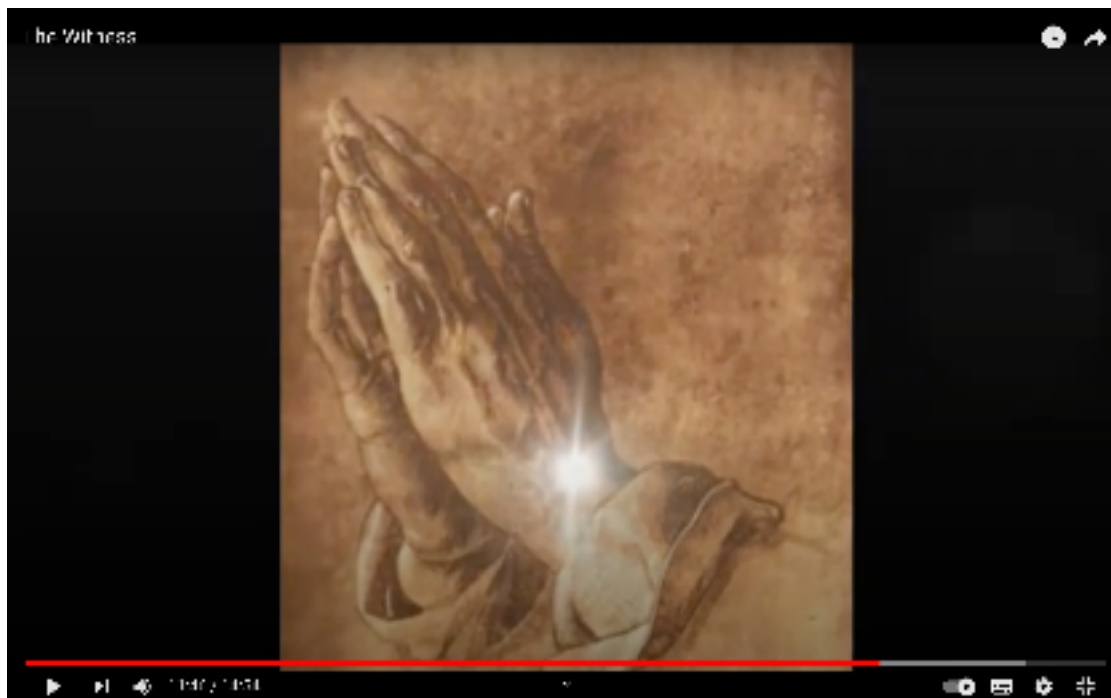

When I say transcendence, I mean that one has gone “beyond, across, and through the dream state of dense matter” - exactly like the hidden meaning of the word states.

The Duality “dance” ends because one has taken themselves out of the “trance”; hence “TRANCE-END-DANCE.”

A trance is a state of mind that is induced by a magical incantation where Consciousness is fragile and our GOD AWARENESS is essentially put on standby” Mode. One can only snap out of the “trance” and get out of “standby” or “sleep” mode when the duality has been ‘bridged.’

The true symbolic meaning and basis of “prayer hands” is about bridging the “gap of duality where all opposites are thus conjoined. This is where one is able to find neutrality and therefore the ‘eternal.’

At this point, one is able to SEE the ‘flow’ of everything moving in OPPOSE-IT ‘DI’rections. This is the Parting of the Red Sea of Moses, the narrow gate of Jesus, the Middle way of Buddha, or the choice lessness of Krishnamurti.

This is where Clarity is found and the only doorway to Freedom where one is able to go “beyond” by crossing the bridge the “bridge;” that is only available to the witness.

*Inserted Video speech from J. Krishnamurti:*

*So that's the first thing to understand that there is no one to guide you, no one to tell you that you are progressing, no one to tell you that or encourage you.*

*You have to stand completely alone in meditation*

*Do you understand that what it means*

*And you can.*

*And this light can only come to yourself when you understand or investigate into yourself what you are. That is self-awareness, to know what you are.*

*Not according to psychologists, not according to some philosophers, not according to the speaker, but to know to be aware of your own nature of your own structure, of your own thinking, feeling.*

*Find out the whole structure of it. Therefore self knowing becomes extremely important. Not the description given by another, but the actually what is what you are. Not what you think you are or what you think you should be but what actually is going on.*

*Know how difficult that is, have you ever tried it?*
